Introduction

"Al Rayyan has a focus on client engagement, focusing on client needs"

Founded by Mohammed Labda, Al Rayyan Al Motahidah Projects is an ethics-driven construction company serving Doha and the greater GCC region. Securing clients and contracts with some of the biggest names in the area, Al Rayyan has a focus on client engagement and above all else, quality workmanship. This grants the assurance that any project, from the largest to the smallest, will be designed and executed with our client's needs foremost in consideration.

Al Rayyan's vibrant office space has employees from around the world, offering a spectrum of mixed expertise from which to draw and promoting innovation to further our ability to develop new, more cost-effective solutions to our clients. The combination of experienced, steady management and the introduction of new practices and tools means we are more capable than ever of meeting the needs of our clients.

About Us

Company Info

We pride ourselves in providing a high quality and affordable product in an exclusive and discriminating environment. Al Rayyan Construction is based in Doha, Qatar, home to one of the world's most vibrant construction markets. Since its inception Al Rayyan has kept its focus on the construction of high end buildings and villas, steel structure and infrastructure.

We believe in focusing on our core expertise and consistently performing at the peak of our abilities. Throughout our history, our employees have conducted projects with a value totaling well over 150 million Qr and have demonstrated initiative and individual performance acting independently in the majority of their work.

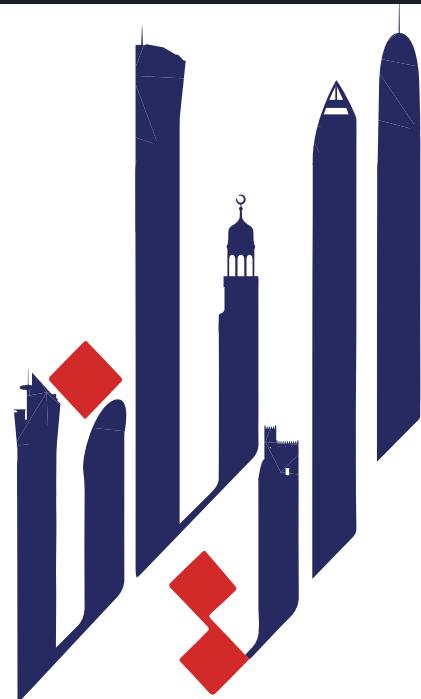

Our Mission

To establish ourselves as the top choice in the market by consistently delivering technical projects that are of the highest quality, demonstrate exceptional performance and are completed within the promised time frame.

Our Vision

Our aim is to attain a position of eminence as a construction firm in the GCC, characterized by steady and responsible expansion, strong connections with our clients, and an environment that is conducive to the well-being of our workforce.

AL RAYYAN AL MOTAHIDAH PROJECTS

Message from the Chairman

Mohammed Labda

“Our goal is not growth. Growth is a natural consequence of success and success is formed from serving our clients well. That service is our goal - to show the world that trust in us will be returned many times over.”

“We are here to help our clients build their future, so they in turn are equipped to do so for others. In this way, we all raise each other up.”

Services

Al Rayyan specializes and supports all types of aerial and underground construction works and installation projects. Our main focus here is providing efficient, quality service for our customers and clients, as we are a **full-service company**.

As a preeminent contracting services provider, Al Rayyan has the financial stability and resources to handle projects of small and medium size. We know what it takes to get the job done - on budget, on target and on time.

Al Rayyan's utility services scope includes but is not limited to the following:

Civil Works

Construction and maintenance of large-scale public works requiring earthmoving, such as roads, canals, water and sewage systems, pipelines and airports, or the foundations of buildings.

Steel Structures

Frames and gantries for factories and warehouses. Our modular construction methods offer design freedom and are easy to assemble. Short turnaround time makes it a fast and economical solution.

Infrastructure

Not only do we cater to private sector needs, we are also meet the maintenance and development needs of local, regional, or even national governments, including roads, power lines, water mains, natural gas pipes, public buildings, and more.

Landscaping

From earthmoving to water features, trees and shrubbery, pathways and patios, we offer services for residential, commercial and light industrial use. Whether you need aesthetic touches for a garden, or levelling for goods vehicles, we can provide.

Building Interior

We can take your projects to completion, inside and out. From light fixtures to ceilings, HVAC, fire suppression systems, plumbing and bathrooms, elevators and fire stairs, we can provide all essentials required by your local building codes.

Design and Consulting

There are times when an outside perspective is necessary for a project. Our experienced engineers and specialists are available to provide consultation, offer guidance, or present alternative solutions and designs that will satisfy your requirements.

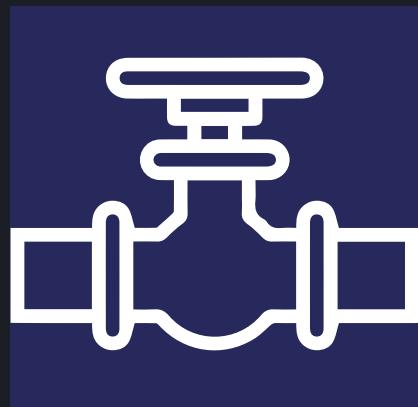

Demolition Works

When a building has to come down, you can rest assured that our engineers are ready to conduct all demolition work in a safe, controlled and expedient manner. We are proud to say that in spite of the dangers associated with demolition work, we boast a spotless safety record in the field.

U.E.P.

Utilities Extension Projects connect your new building to existing infrastructure, including new road connections, sewer and waste pipes, water, electricity, phone and fiberoptic lines.

Fit-Out and Interior Design

Making a house a home, or taking an office from a stark white box to a comfortable and efficient work space, is an essential element of any build. From paint to shelving and plumbing, we offer hand-picked materials and utilize them in the best possible way, remaining sensitive to shifts in culture and fashion.

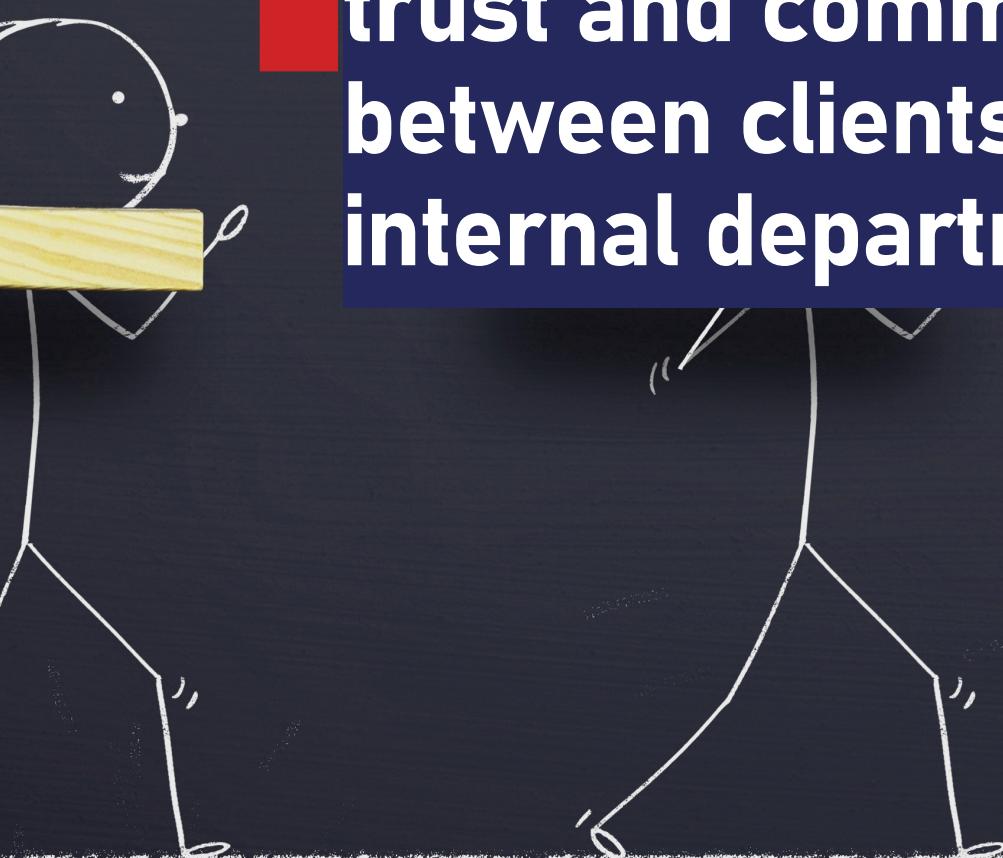

Future Plans

Embrace new
techniques and enhance
project control

Refining a management
style based on mutual
trust and communication
between clients and
internal departments

**Incorporate new
subsidiaries and partners
to take advantage of
emerging technology**

**Expand our clientele
and increase our
market share**
